## **My Exercise Planning Form**

No matter what your exercise goal is, making a specific plan can help you be more successful.

Follow the steps to start your exercise plan. Then bring this sheet when you visit your doctor so you can refine your plan together. You may also want a personal trainer or fitness expert who can help you with your exercise goals. You can fill out this form online, but the information can't be saved. Or you can simply print it and then fill it out by hand.

Questions to ask your doctor:	
• /	Any health problems I need to keep in mind?
• ,	Any special tests I need before I start an exercise program?
• /	Any exercises I need to avoid?
•	What exercises are safe for me that I know I'll enjoy?
	<ul> <li>Aerobic exercises: How often and how long</li> </ul>
	<ul> <li>Flexibility exercises: How often and how long</li> </ul>
	<ul> <li>Strength and balance exercises: How often and how long</li> </ul>
• /	Any warning signs I need to watch for?
• :	Should I take my pulse when I exercise? If so, what range is best for me (target heart rate)?
•	Should I change the time I take my medicines?
• (	Other questions:

## See your success.

Creating this exercise plan is your first step to success. Post it in a place where you'll see it, and revisit it as you meet your goals. Nice work!
